# **Latent Cause Analysis**

**What You Can Learn from  
Things that Go Wrong,**

# **Latent Cause Analysis**

**What You Can Learn from  
Things that Go Wrong,  
Without **BLAMING** People in  
the Process!**

# Latent Cause Analysis

**What You Can Learn from  
Things that Go Wrong,**

**By Asking People to Look at  
THEMSELVES**

**Instead of focusing on Other  
People and Things.**

# What is Latent Cause Analysis?

It is NOT the same as  
“Root Cause Analysis!”

**A problem exists with  
Root Cause Analysis**

**Root Cause Analysis has  
become ANYTHING people  
WANT it to be!**

**Everyone seems to have their own  
definition of Root Cause Analysis!**

**This is not good!**

# The Problem with Root Cause Analysis

## Choice

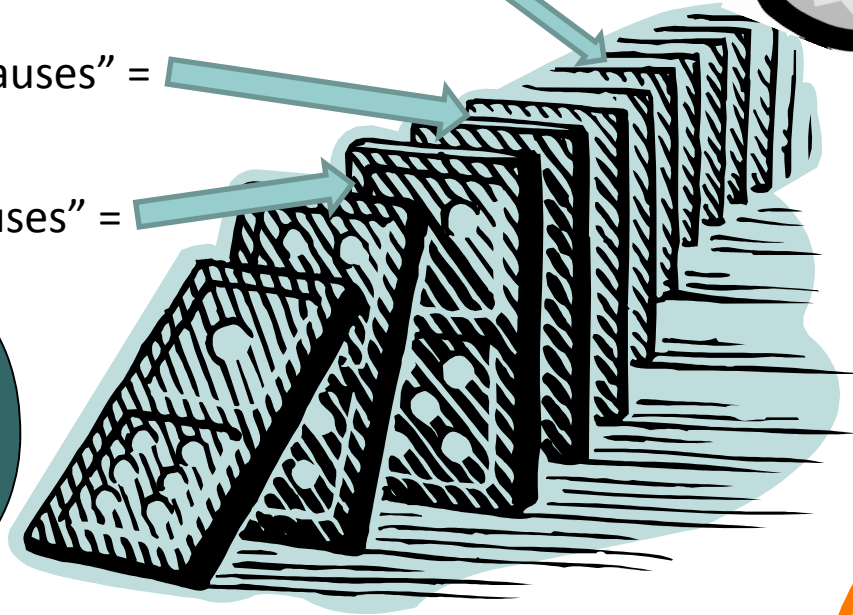

# The Problem with Root Cause Analysis

Method X: "Root Causes" =

Method Y: "Root Causes" =

Method Z: "Root Causes" =

# The Problem with Root Cause Analysis

People have made  
“Root Cause Analysis”

into whatever they *want* it to be!

# The Problem with Root Cause Analysis

*“The root cause of the aircraft disaster was pilot error.”*

*“The root cause of the explosion was metal fatigue.”*

*“The root cause was a procedural flaw.”*

*“The root cause was a negligent operator.”*

***How deep are people willing to dig?***

# The Problem with Root Cause Analysis

We, as human beings, will look for anything or anyone except ourselves as causes of our problems,  
and  
we will do it as fast as possible.

# The Problem with Root Cause Analysis

We, as human beings, will look for anything  
or anyone except ourselves as causes of our  
problems,

and

we will do it as fast as possible.

***Our desire to ACT  
overpowers our need to  
UNDERSTAND***

# The Merry Go Round Phenomena

**Introducing.....**

**Latent Cause  
Analysis**

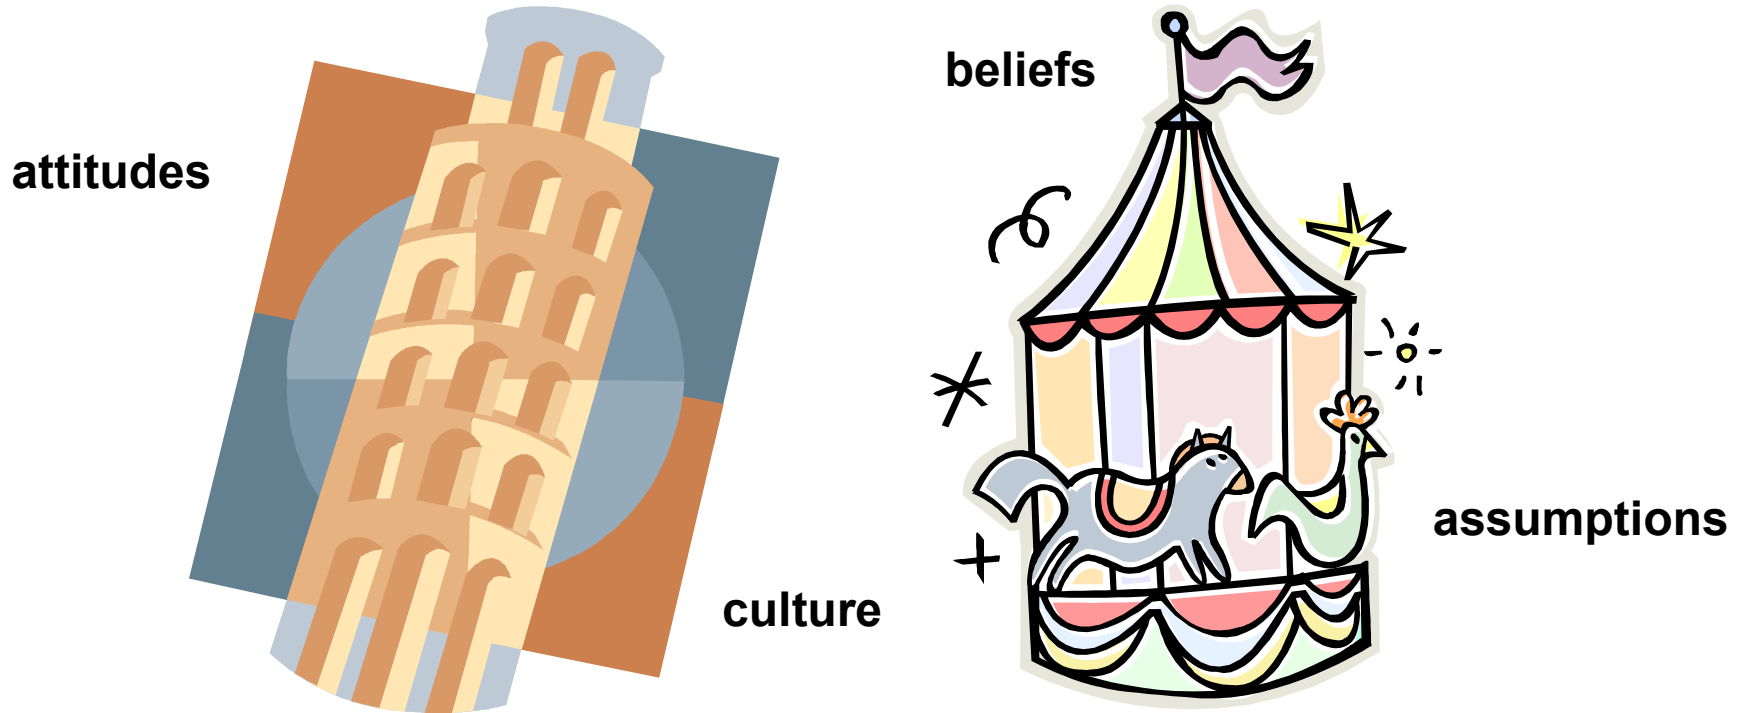

**Latent Cause Analysis  
is Failsafe's “brand”  
of Root Cause Analysis**

# Latent Cause Analysis...

is an attempt to make the Merry-Go-Round **VISIBLE**

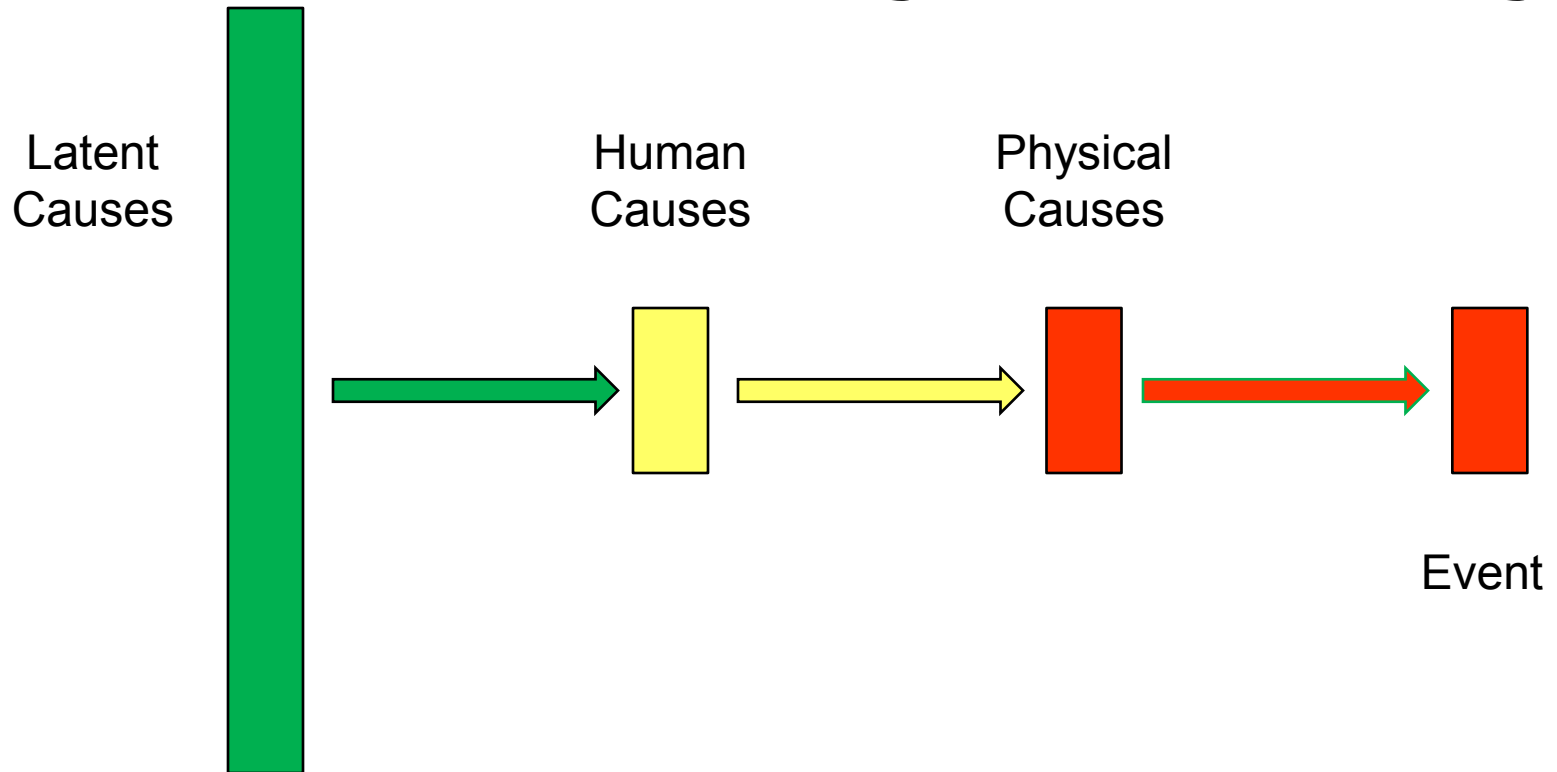

# Latent Cause Analysis

What is it about **the way we are** that contributes to our problems?

What is it about **the way I am** that contributes to our problems?

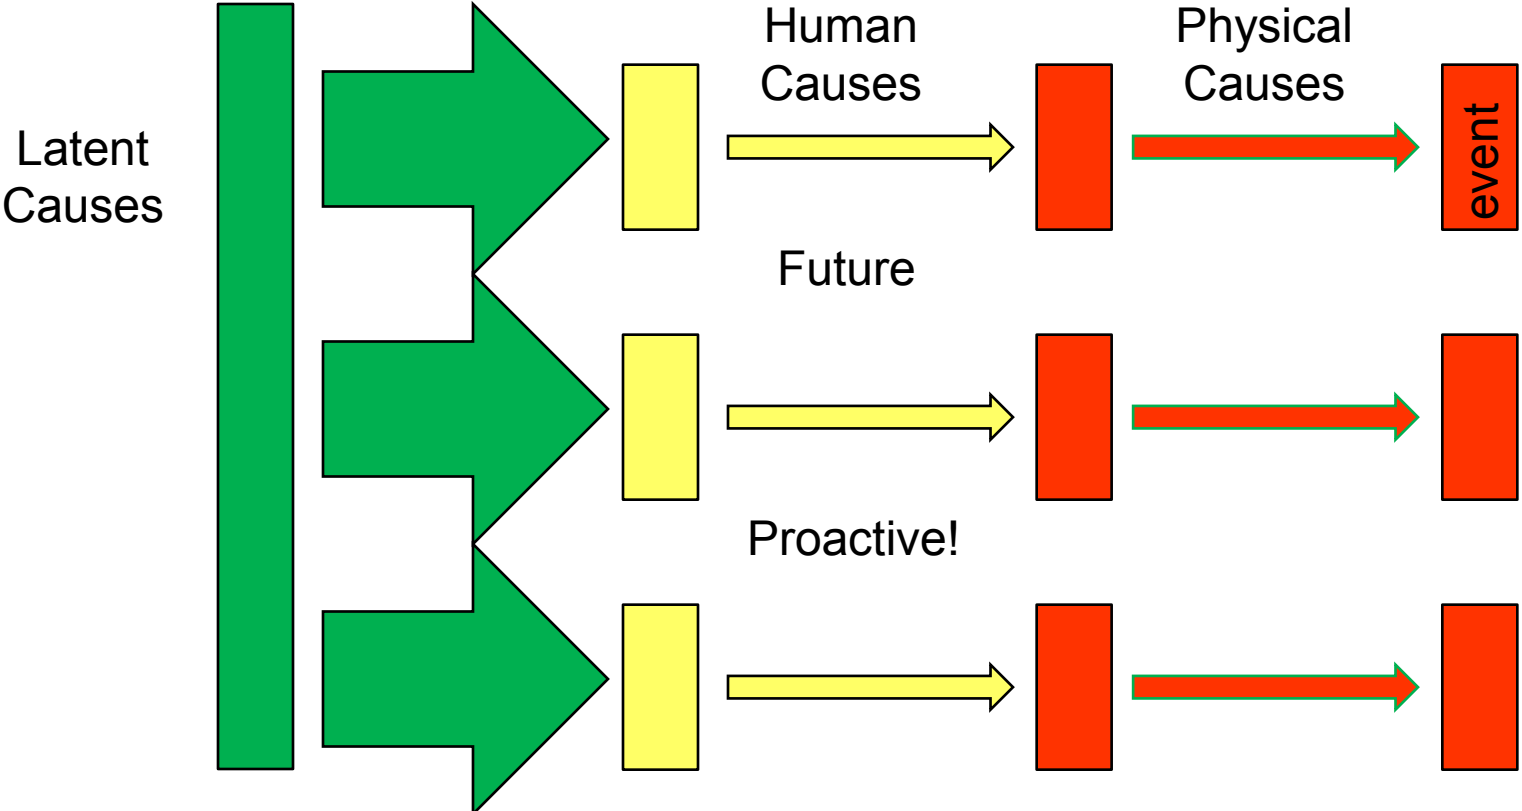

# Latent Cause Analysis Summary

What is it about **the way we are** that contributed to this problem?

What is it about **the way I am** that contributed to this problem?

# Latent Cause Analysis Summary

What is it about **the way we are** that contributed to this problem?

What is it about **the way I am** that contributed to this problem?

# Latent Cause Analysis

Emotion!

Will result in.....

Defensiveness!

Shock!

# Because Latent Cause Analysis is Contrary to Human Nature!

## Human Nature

- It's not me, it's you.
- It's not us, it's them.
- It's not people that cause our problems:
  - it's our equipment.
  - it's our systems.

**Human Beings LOVE to  
BLAME!**

# But Latent Cause Analysis REQUIRES people to look at themselves,

- What is it about the way WE ARE that contributed to this event?
- What is it about the way I AM that contributed to this event?

**instead of pointing fingers at other people and things.**

# Latent Cause Analysis

Emotion!

Will result in.....

Defensiveness!

Shock!

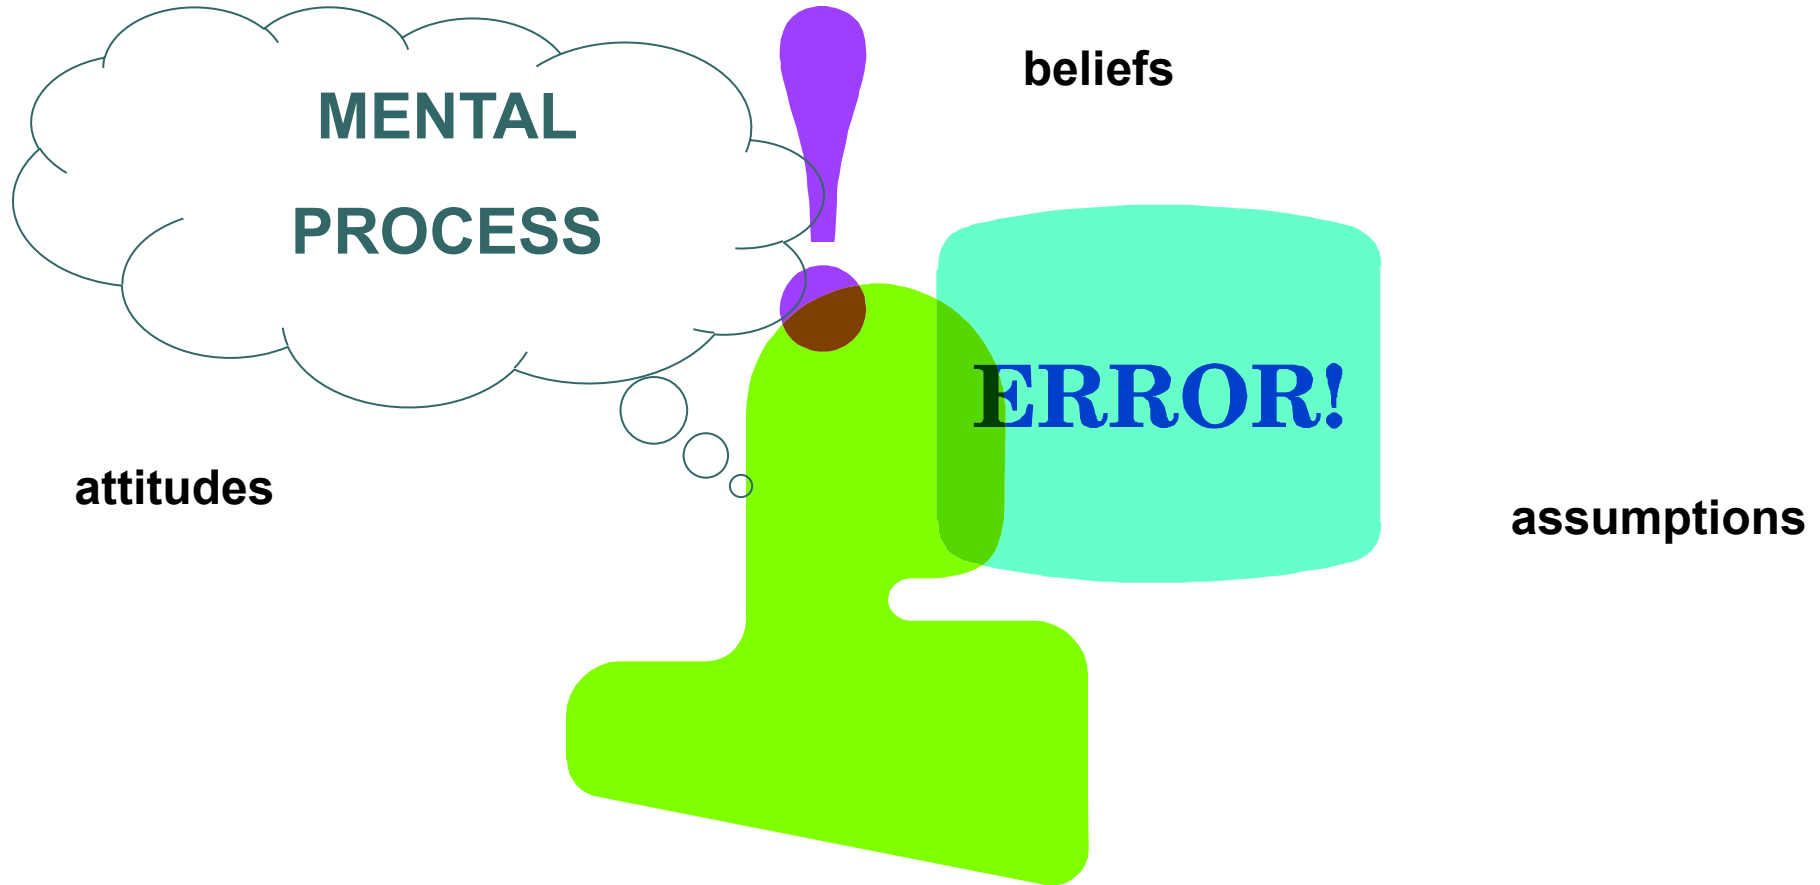

**Because the Objective of LCA IS...**

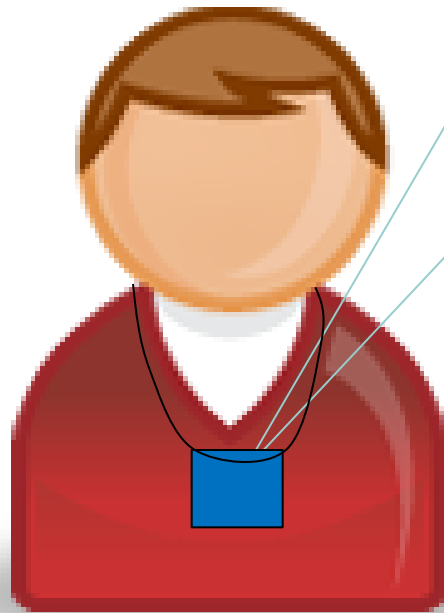

**to change the way people THINK.**

# The Objective of LCA IS...

to change the way people THINK.

*I am here to  
help us change  
the way we  
think!*

**In order to change the way people think, they have to see themselves as part of the problem.**

*This is true for ALL levels of an organization.*

management

engineering

contractor

labor

*Until we see  
ourselves as  
part of our  
problems,  
they'll never  
change.*

office staff

# Golden Rule of a Latent Cause Analysis

**We must try to understand to such an extent that we're convinced we'd have done the same thing.**

*This is true for ALL levels of an organization.*

**NO FINGER-  
POINTING!**

# Overview of the Latent Cause Analysis Process

1. Three forms of evidence are gathered by an unbiased group of people:
  - People Evidence
  - Physical Evidence
  - Paper Evidence

# Overview of the Latent Cause Analysis Process

2. The gathered evidence is summarized by this unbiased group.

# Overview of the Latent Cause Analysis Process

3. Once summarized, the unbiased group asks themselves:
  - Who needs to see this evidence?
  - The above people are considered “Stakeholders.”
4. The Stakeholders are invited to a meeting.

# Overview of the Latent Cause Analysis Process

5. The summarized evidence is presented to the Stakeholders.
6. **After reviewing the evidence, the Stakeholders are asked to identify the causes of the incident.**

# Overview of the Latent Cause Analysis Process

7. Finally, the Stakeholders are asked to state what they intend to do about the causes of the incident.
8. This process is facilitated by the Principal Investigator of the incident.

# Overview of the Latent Cause Analysis Process

**LCA**

*(latent cause analysis)*

leads to

**LCD**

*(latent cause discovery)*

which

***changes the way  
people THINK.***

Evidence gatherers

“Stakeholders”

“Stakeholders”

# Latent Cause Analysis

An attempt to change PEOPLE!

# Latent Cause Analysis

because when **PEOPLE** change,  
everything else will change.

# Latent Cause Analysis

**Not just another form to complete!**

# Latent Cause Analysis

**Nor another effort that aims to generate more action items!**

*If you think  
writing action  
items will solve  
your problems,  
you don't  
understand the  
causes of your  
problems.*

*Change people, or  
change people.*
